Employment history

1998 to date **IT manager.** This role requires me to:

- budget the annual running costs;
- plan and organise training courses for users;
- plan and organise H/W and S/W maintenance;
- develop software to back up the company activities and new projects;

2004 to date **Quality manager** This role requires me to:

- budget the annual running costs;
- plan and organise training courses;
- coordinate the quality control of internal and external processes;
- support internal processes to review and approve procedures;
- support the chief management to monitor the quality systems with the aim of improving them.

2009 to date **Lecturer in quality engineering** at the University of Trento. This role requires me to:

- plan and organise lessons and activities to teach the main concepts of quality management;
- monitor the quality of lessons in order to improve effectiveness;
- support students in the learning process through an innovative approach. During the lessons students are urged to reflect on their knowledge and past experiences through abstract conceptualisations which are discussed as a class;
- plan and organise games to allow students to become familiar with the quality concepts. An example is the "Manufacturing game" which is a problem-solving game. During this exercise students have the opportunity to learn how to satisfy clients, how to work as a team and how to organise and control a process.

2012 - 2014 **Director in a voluntary organization** "AOS" focused on youth education.

This role required me to:

- budget the annual running costs;
- plan and organise activities relating to socialising and learning;
- plan and organise hands-on workshops on specific topics, e.g. the regular events to do with youth employment;
- coordinate around 10 volunteers;
- monitor the quality of activities with a view to improving them;
- promote close collaboration with other organisations to develop even more ambitious projects.

2016 - to date **Co-founder of a mutual help group "Men 2.1".**

This peer-based group, for men, is focused on supporting and encouraging personal growth and empowerment through the discussion of men's problems. In this group I have no specific responsibilities.

Languages

English	Level B2 and improving
German	Level A1- A2

Interests

Leadership	The different theories of leadership The process of sharing a vision and coordinating resources in order to motivate and engage others
Managing people	The interaction between an individual and the context. The concept of performance. Teamwork
English grammar	Speaking is not knowing a language. Grammar is glamour and it's the essence of all languages.
Circuit training	Well-being is important not only for work, but also in our personal life. I am a member of a group that practises circuit training once a week

People do not know I am good at

Organising	I like planning as it unleashes my creativity and my sense of satisfaction. I have planned and organised courses, events, Apps, games and last but not least my daily workout plans
